***Election/Restrictions***

Newly amended claims 1, 52, 64 and 20 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: applicant has claimed the slits to be extend circumferentially around the tubular wall which is the same as spiral cut, which the applicant had not elected as one of the species to be examined.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 1, 52, 64 and 20 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The timely submission under 37 CFR 1.129(a) filed on 8/11/2004 is not fully responsive to the prior Office action because as mentioned above the newly amended claims read on a non elected species hence there are no more independent claim for the examiner to examine. Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a). If a notice of appeal and the fee set forth in 37 CFR 1.17(e) were filed prior to or with the payment of the fee set forth in 37 CFR 1.17(r), the payment of the fee set forth in 37 CFR 1.17(r) by applicant is construed

Art Unit: 3763

as a request to dismiss the appeal and to continue prosecution under 37 CFR 1.129(a).

The appeal stands dismissed.
